-> You can find a lot of inspiration for craft ideas on our website!

Beginning of December

- In order to avoid stress, you should slowly put your gifts together and if you want to surprise somebody with a DIY gift, be sure to start so that you still have enough time!

1-2 Weeks before

- Now it's time to wrap: get some nice wrapping paper and small packaging details to put the finishing touches to your gifts
- To keep track, we recommend that you attach small name tags to the gifts

The last days before

- If you drive home or leave for holidays for the Christmas days, do not forget to safely store your presents in your suitcase

Christmas Eve

- Distribute the gifts to your loved ones and unpack your own
- Enjoy Christmas! :-)
