# WOOD TREE CHRISTMAS CALENDAR

# WOOD TREE CHRISTMAS CALENDAR

Christmas Calendar from sister MAG 9

Contributor: **SISTERMAG**

## Materials

- ☛ Piece of wood, e.g. beech or poplar from the hardware store, about 60x120cm
- ☛ Matte paint, e.g. a sample can from Farrow & Ball
- ☛ Mount for the wall, e.g. a collapsible loop with pen from SUKI via Hellweg - <https://bit.ly/3oJeZiq>
- ☛ Bullen nail in gold
- ☛ Fabric scraps – with a fabric width of 1,40m you'll need about 70cm length for 24 small pouches
- ☛ Cord (around 10m for the entire calendar)
- ☛ Depending on the numbers:
  - » Thick white paper to print the numbers on
  - » Embroidery thread and needle for embroidered numbers
  - » Textile paint & number stencil (via amazon) for painted numbers (e.g. <https://amzn.to/3jRN38d>)

**SCHRITT 1** Print the tree pattern and glue the A4 pages together

**SCHRITT 2** Copy the pattern onto your wooden board and cut out with a jigsaw or circular saw. File down the edges with rough and fine sandpaper

**SCHRITT 3** Paint the tree twice with the matte wall colour, letting it dry well in between

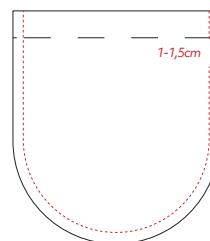

**SCHRITT 4** Attach the mount / collapsible loop. Then evenly distribute the bullen nails on the tree and nail them down

### For the pouches

**SCHRITT 5** Cut 48 of the single patterns and neaten the edges

**SCHRITT 6** Along the shown lines, fold over the edge for where the cord will go through and iron – don't sew them yet

**SCHRITT 7** Put two parts together right on right and sew them together. Leave an opening on one side for the cord.

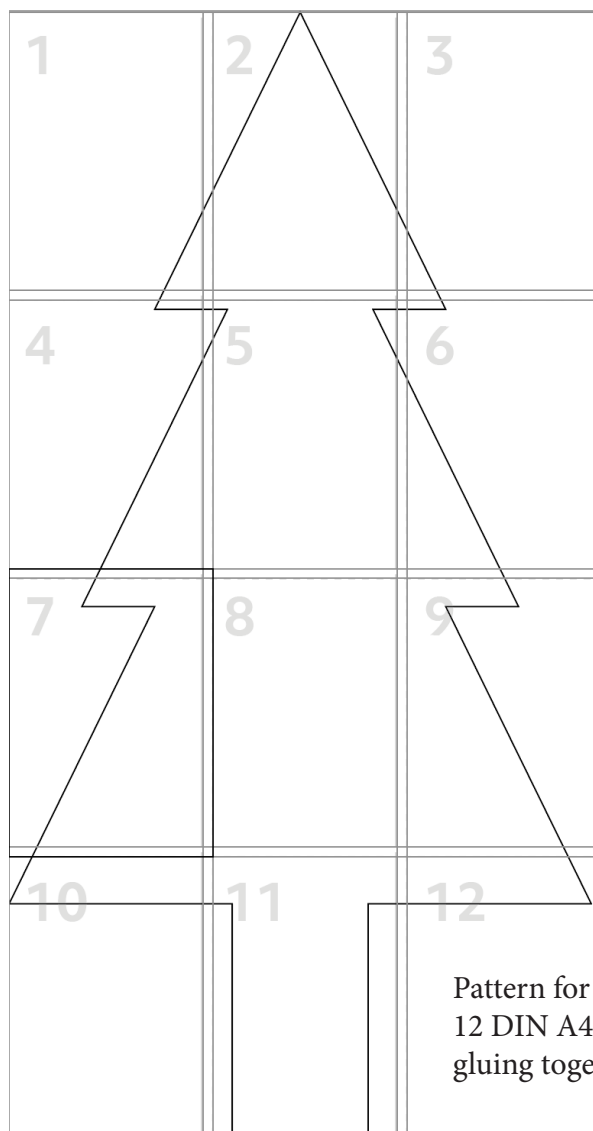

**SCHRITT 8** Turn the pouch and iron, turn the folded edge inside and sew it. Put the

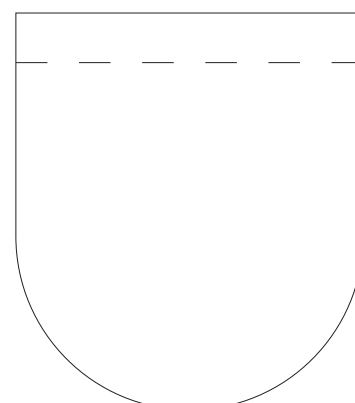

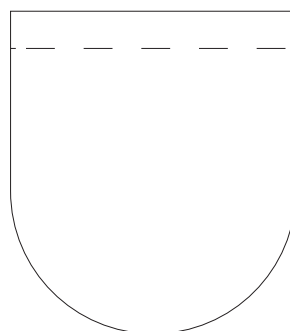

## SCHRITT 9

cord through and knot it.  
You can choose between printing the numbers (as included in this pattern). We cut them out, refined them with a corner punch and made a hole for attaching them. You could also embroider the pouches or paint the numbers using textile paint and a stencil so the pouches can be washed and will bring you joy for a long time!

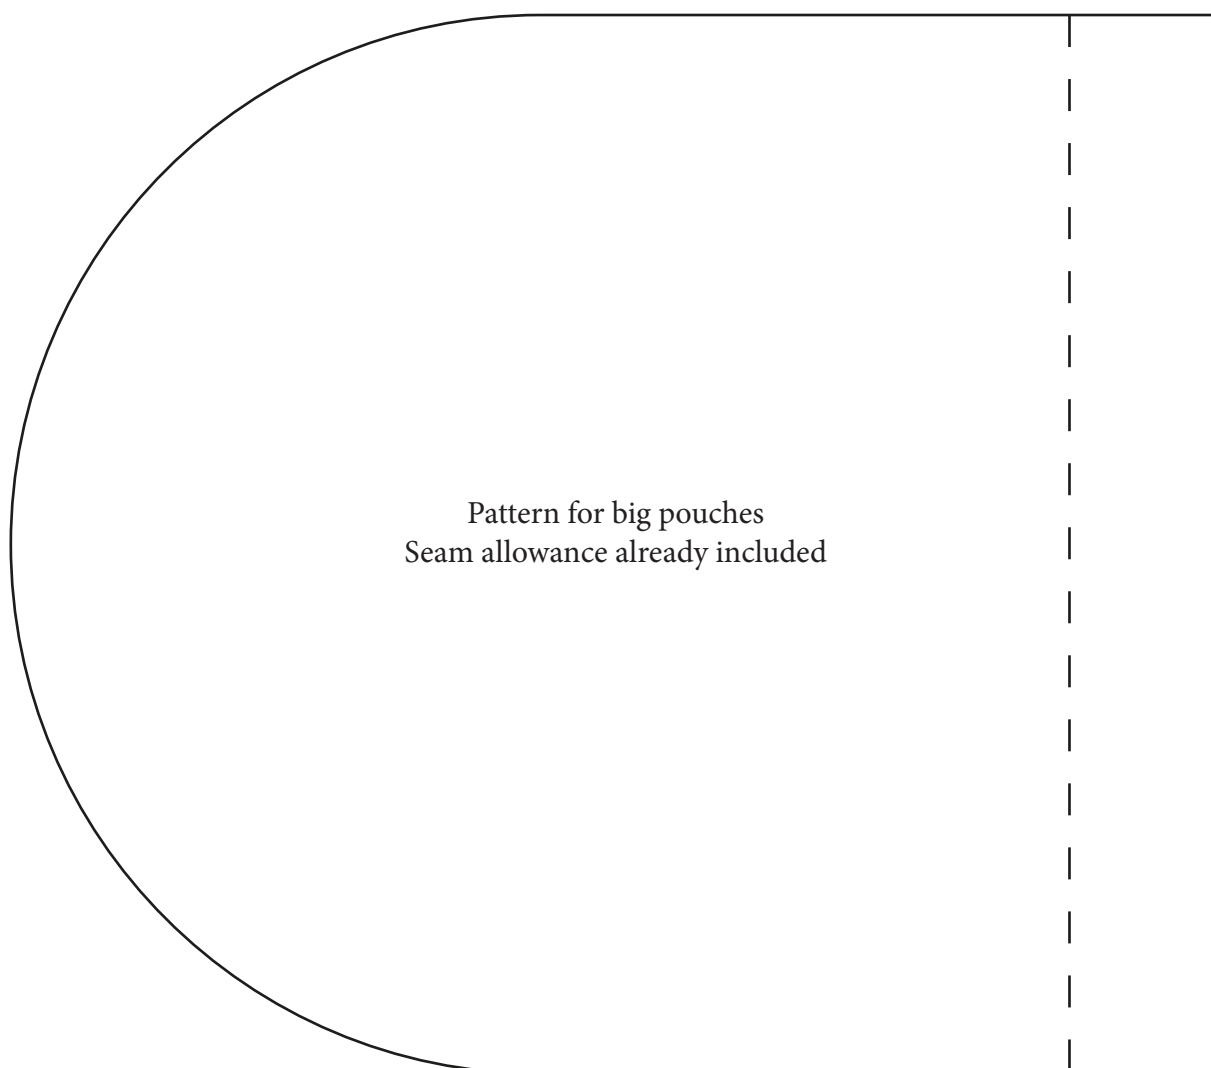

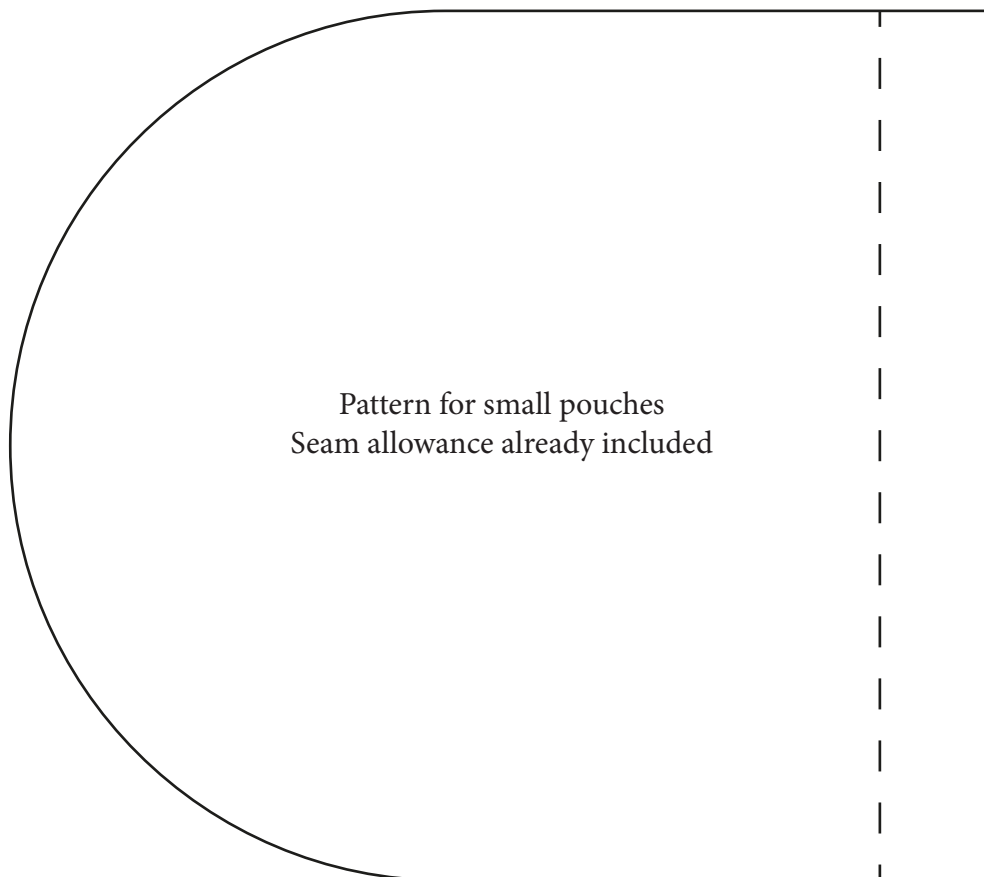

### Included in this pattern:

Pattern for the tree on  
12 DIN A4 pages for  
gluing together
