TITLE

DIY HIMMELI-CHRISTMAS ORNAMENT

FEATURE

Celebrate

SISTERMAG

N°27

MATERIALS

(for an ornament about 15 cm wide)

- » 3 brass tunnels (each 1m long): brass, 2mm x 2mm x 1000mm
- » wire
- » tongs

TUTORIAL

1. For each ornament, you will need 30 pieces of equal length. First, crop the brass into 30 pieces with the tongs (for example 3cm, 6cm or 10 cm long – depending on desired size).
2. String 3 brass pieces on the wire (about 1m) and shape them as a triangle. Tie the ends.
3. In that manner and ideally with the same piece of wire, form 4 more triangles that will form the upper half of your ornament. This should look like a small tent. If you don't have enough wire, tie some more to the original string.
4. Repeat this process to form the lower part of your ornament with 5 more triangles and put it aside.
5. On the upper half, add two pieces of brass on each corner and tie them at the bottom. This time you will only need two pieces to create a triangle as the third side is already part of the top
6. Now you can put the himmeli together by adding the bottom to the top half.
