

TITLE

PAPER DIAMONDS

FROM THE FEATURE

Marble Grey & Ash Blond

SISTERMAG

N°28

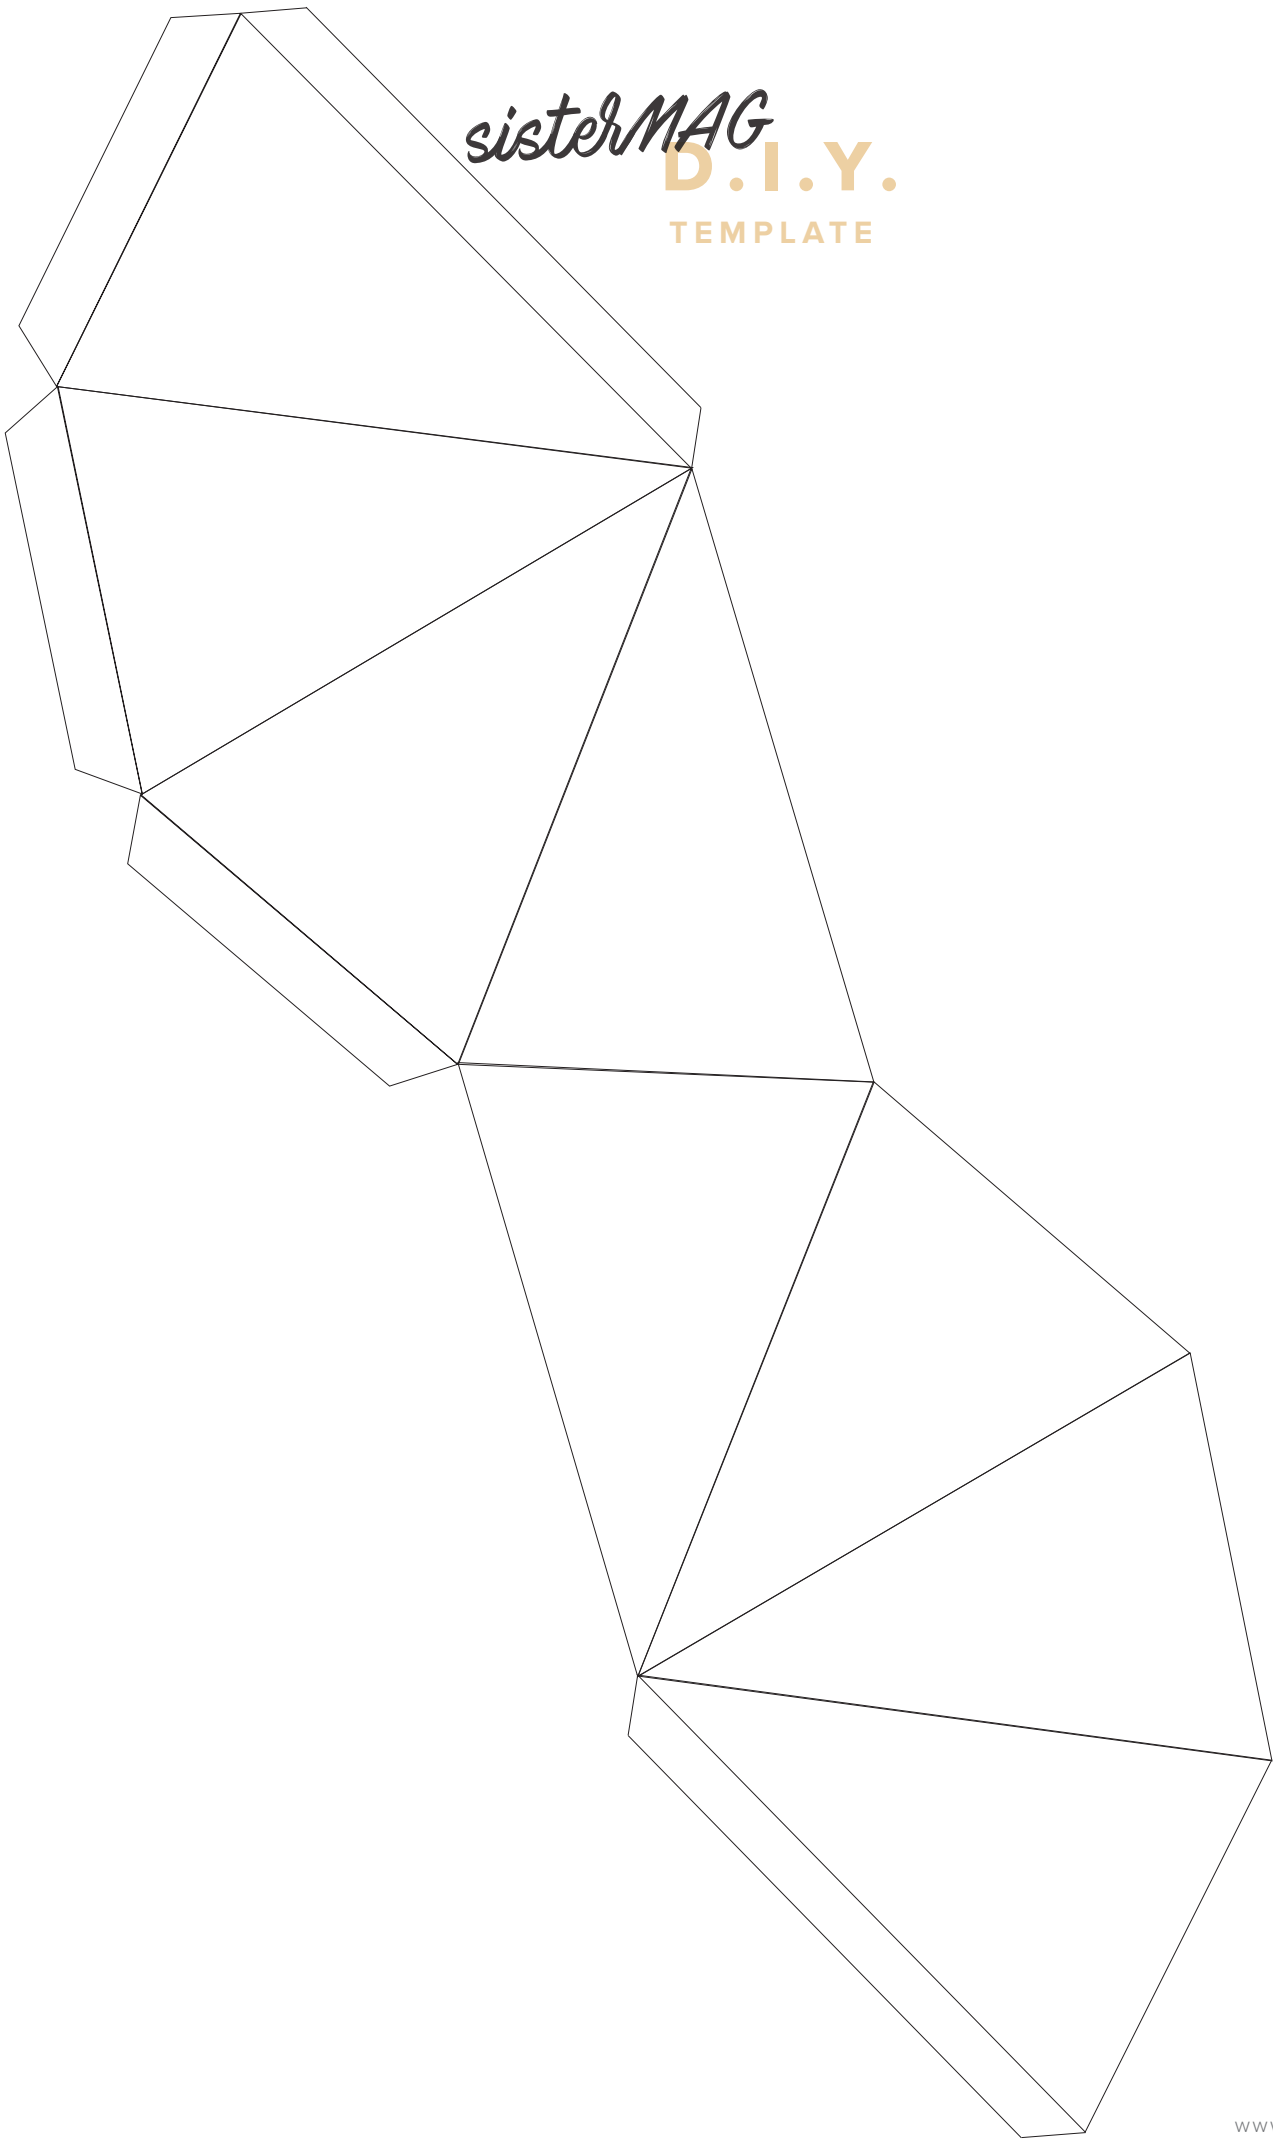

MATERIALS

heavier than average paper, A4 (160-250g/m²)
glue & scissors
folding stick
ruler & pencil
craft wire
pliers
a piece of cardboard, heavier than average paper A4 (a pointed item)

TUTORIAL

1. Print the pattern onto A4 paper and cut it accordingly. Then trace the pattern on the heavier paper including the lines above the corner points. Fold along the lines using a ruler and folding stick.
2. Fold the paper on all lines smoothing the edges using the folding stick.
3. Now it's time to glue it all together: Apply glue to the outer edges and affix them to the insides.
4. Cut the floristry wire into pieces of varying length.
5. Drill holes into the cardboard. Affix the wire to the cardboard by bending the lower end and glue it on.
6. Place the diamonds atop the spikes. Voila!
