**MORE
DIYS**

-
- STEP 1** Take your Viennese netting and wrap it around your wooden disk once to gauge the length you need.
- STEP 2** Add around 1cm as area for the glue. Now cut your woven cane.
- STEP 3** Use a hot glue gun to attach the bottom all the way around your disk. Trim off excess cane if necessary.
- STEP 4** The base for your basket is already done! For a clean edge, take some wood shavings and glue them around the top rim using your hot glue gun.
- STEP 5** Now for the lid: glue one smaller and one slightly bigger wooden disk on top of each other.
- STEP 6** Then drill a hole into the middle of both disks.
- STEP 7** Use a leather strap or a nice piece of ribbon and string it through the hole you just drilled. Simply glue the bottom ends to the inside of the lid.
