| ISSUE | 68 |
|-------|----|

MATERIAL

- »Firm paper, cut into rectangles of sizes 4cmx4cm and 3,5x3,5cm
- + 5 cm round circle for base
- »Hot glue gun
- »Velvet ribbon for binding

INSTRUCTIONS

1. First cut out a 5 cm circle as the base of the flower.
2. Cut out approx. 38-40 rectangles in a diamond/ rhombus shape. It is better not to use squares, but the shape on this page or in the template. To make the paper easier to work with, pull the paper over a folding bone or ruler, then glue the small bags together and glue them together at points A.
3. Now place the bags in a circle on the base to check the positioning. They should be evenly distributed. Glue on the first row. To do this, press the flowers together slightly at the bottom.
4. Now glue the next bags into the spaces between the first row. Continue in this way until you have reached the middle.
